

# ASME Technical Visit to Guangdong Electric Power Design Institute & Dongguan China Power Clean Energy Thermal Power Plant

**Date:** 28 May 2019 (Tuesday)

**Attendance Quota:** 35

**Location:** Guangzhou GEDI Office, and  
Dongguan China Power Clean  
Energy Thermal Power Plant

**Program Fee:** HK\$ 300 per head

**Enquiry:** [industrial@asmehk.org](mailto:industrial@asmehk.org)

## Program Outline:

This is a one-day technical visit focuses on understanding the latest power sector and clean energy development of the Mainland China. It will be coordinated by the Guangdong Electric Power Design Institute (GEDI), one of the biggest power engineering company in China. The tour will include visit to GEDI Intelligent Exhibition Hall, discussion, and visit to the Dongguan China Power Clean Energy Thermal Power Plant, which is natural gas-fired and can reuse waste heat for other industrial application.

## Who Should Attend:

Engineers who wish to understand the latest clean energy development and familiarise the operation and services of a power engineering design institute in the Mainland China.

**Transportation:** Depart by High Speed Rail  
Return by Hexie Train

**Application Deadline:** 16 May 2019
